

New Yorkers For A Day

American Observer in China Declares That Country the Best Possible Market for the United States.

By Roger Batchelder.

"China is the greatest potential market for American goods," according to Major Arthur Bassett, who is at the Pennsylvania Hotel in Shanghai. Major Bassett, a native of Paris, Mo., has spent twenty years in the Orient, and during the war was a confidential observer there for the American army.

"I went to China because I wanted to learn at first hand about the possibilities of the country. I have shown the Chinese the necessity for buying American goods and in turn have been convinced of the greatness of the Chinese market."

Major Bassett came to this country to attend the Disarmament Conference in an unofficial capacity and also to lend his influence to the China Trade Act.

OUR A. L. DEPARTMENT.

"Education is the only hope for eradicating radicalism in this country," asserted Alvin M. Ouzley, a prominent member of the American Legion, who is at the Astor. "We speak of the radical alien emigrant, yet we do not know him," he said. "We cannot expect him to know our country until we tell him the truth of our history. Our Government cannot go on in the future as in the past; we cannot be half American and half something else."

"We must break up the sectionalism of nationals, and must go to them, not expect them to come to us. If we expect them to bring their ambitions and ideals in harmony with ours. The most essential means to the end of breaking through the barrier is a common language, and the American Legion hopes to make it the English language."

"But it is not only the foreigners who must be brought to a realization of what the country means to them. Our recent draft reports showed that 11,000 of our own kind do not understand the genius of America. It is our business to make men and women mentally right and physically fit for better service to our country."

POULTRY EXPERT HAPPY.

W. Bradley of Homestead Poultry Farm, East Grinstead, Tussock, England, and Manager for Lord Dewar, is at the Commodore. He came over here with seventy-one birds valued at about \$10,000, which he recently disposed of at the Poultry Show. He also won many show prizes.

Mr. Bradley likes New York, and yesterday he went to the roof of the hotel to get a bird's-eye view of the town before sailing home on the Aquitania.

"I've had little opportunity to see your wonderful city," he confided, "because Lord Dewar's bantam birds have kept me quite on the jump. Now I propose to do this to-day: Ride in the subway at rush hour, walk up and down Fifth Avenue, cross some of your bridges, visit your great east side, take a look at the birds in the Bronx Zoo and visit Grant's Tomb, and have lunch, if I have time. After that I'll be able better to give my impressions."

JAMES J. HILL ESTATE FIGHT ON IN PROBATE COURT.

Seven Heirs Oppose Naming of Louis W. Hill as Executor of "Empire Builder."

ST. PAUL, Minn., Feb. 2.—Heirs to the \$12,000,000 estate of the late Mrs. Mary T. Hill, widow of James J. Hill, the "empire builder," went into Probate Court here yesterday in the contest over appointment of an executor for her estate.

Louis W. Hill, Chairman of the Great Northern Railway, had asked that he be named executor, while a majority of the nine Hill children oppose his selection and petition for appointment of the Northwestern Trust Company of St. Paul.

The seven heirs opposing Louis Hill, who were named in the will, are: Paul, the youngest son, who owns 97 per cent. of the Burlington. Involved in the controversy, it was declared, is the control by the Hill family of the block of stock in the Chicago, Burlington and Quincy Railroad, which is declared to be the balance of power in the event of any contest of strength between the groups back of the Northern Pacific and Great Northern Railways.

G Washington's COFFEE

ORIGINATED BY MR. WASHINGTON IN 1909

The Convenient Coffee
The Economical Coffee

Each can is equivalent to ten times its weight in roasted bean coffee. 100% pure coffee.

No coffee-pot. No grounds. No waste. No trouble.

Measure the cost by the cup—not by the size of the can.

Booklet free—Send 10c for special trial size.

222 Fifth Avenue, New York

A Secret Gift

is waiting for you when you accept this offer

See What You Get

This offers a gift to women—a beautiful gift. But it does not tell you what it is. We want it to surprise you—to be better than you expect.

Your grocer has it in two styles. You may have your choice.

The gift is a luxury, so most homes do not have it. Not one home in a thousand has one like this.

It is the latest thing of its kind, and made by famous makers. It will last a lifetime as a daily joy.

Accept the offer in the coupon and see what that gift is. We promise you a delightful surprise. Then your grocer will offer one more gift on like terms if you want it.

Milk Like Cream

in density—nearly 8% butter fat

The grocers of this section now have a super-grade of milk. The Van Camp experts have spent 20 years to perfect such a milk for the home.

It comes from sanitary dairies and from high-bred cows. It is produced in the finest dairy sections of the Middle West.

We have built in those sections model condenseries. The milk comes to them fresh from the cow. There, by low heat in a vacuum, we evaporate most of the water.

Double-rich milk

The result is a milk twice as rich as bottled milk. It is as thick as cream, and nearly 8 per cent butter fat.

Use it like cream for coffee and cereals. Add an equal part of water for drinking. Add even more water for cooking, and you still have a whole, rich milk.

For every purpose you have sterile milk, utterly germ-free.

No higher cost

This Van Camp Milk costs you no more than other evaporated milk. It costs you less than bottled milk, and saves you all the waste.

There are small cans and tall cans, so you open what you want. It keeps until you use it up. There is never a shortage, never a waste.

Not for everyone

The production of this milk is limited. There will never be enough of it to supply more than one in twenty homes.

So we select certain sections and keep those sections constantly supplied. Now we offer it in this vicinity and every grocer will be kept well stocked.

We want every home to try it. We want every housewife to know what such milk means. It will be a revelation.

So we make this tempting offer. Try a dozen cans and your grocer will present you a gift to more than repay your test.

The milk will bring you a new delight, and the gift will last a lifetime. Cut out the coupon to remind you of this offer.

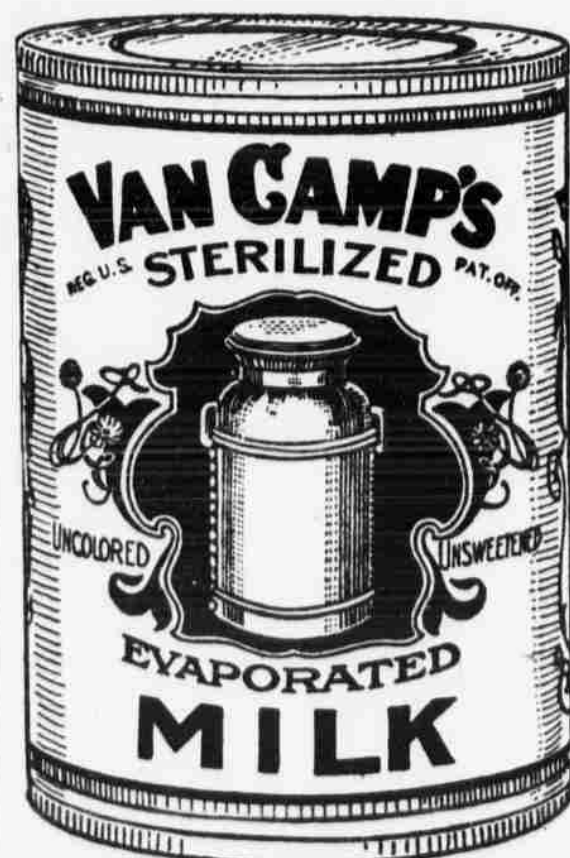

Our Offer

Good for a short time only

The Secret Gift

is at your grocer's

Buy from your grocer 12 cans of Van Camp's Milk, at one time or as wanted. Cut out from each label the picture of the can—our trade-mark. When you have 12 of these trade-marks hand them to your grocer and he will present you the gift.

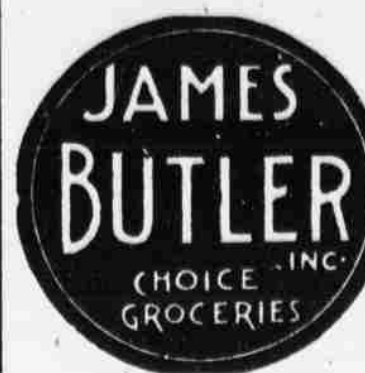

The Richer Milk

The finest milk produced in America

A double-rich milk, as thick as thick cream
Nearly 8% butter fat

JAMES BUTLER, Inc.

Unsightly Eruptions on Face

It is well known that skin eruptions and blackheads (acne) and boils are often caused by errors of diet.

Fleischmann's Yeast is now being recommended for these embarrassing and painful skin troubles because fresh yeast corrects the errors of diet which cause them.

Fresh yeast has been used extensively in one important New York hospital and has been found invaluable in curing boils. When 17 cases of skin eruptions (acne) were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia the results were remarkable. Typical of these was the case of a young man who had suffered with skin disorders for three years. He ate three cakes of Fleischmann's fresh yeast daily before meals. In five weeks the eruption had cleared completely.

Today physicians and hospitals are using Fleischmann's fresh yeast as the most efficacious remedy for skin troubles and boils.

Fleischmann's fresh yeast rids you of them

If you are ever troubled with eruptions or boils, begin at once to correct them by eating 2 to 3 cakes of Fleischmann's fresh yeast every day before or between meals.
